PROFESSIONAL SUMMARY

Results-driven final-year Computer Science and Engineering student with hands-on internship experience in Data Analytics and Generative AI, applying analytical thinking and data-driven approaches to solve real-world business challenges. Demonstrated ability to transform complex data into meaningful insights through practical industry projects while contributing to AI-powered and IoT-based solutions. Winner of a college hackathon, 1st place recipient at a Project Expo, and participant in multiple hackathons, consistently delivering innovative solutions in fast-paced, collaborative environments. Recognized for strong problem-solving, technical communication, leadership, adaptability, and team collaboration, with a passion for continuous learning and leveraging emerging technologies to drive business value and operational excellence.

EXPERIENCE

Data Analytics AI Intern

SHI India Solutions Pvt. Ltd.

Data Analyst Intern

Bluestock™

Gen AI with Prompt Engineering Internship

Datavalley India Pvt Ltd.

EDUCATION

Bachelor of Technology — Computer Science Engineering

Andhra Loyola Institute of Engineering and Technology, Vijayawada, Andhra Pradesh

2027

TECHNICAL SKILLS & COMPETENCIES

Programming Languages: C, SQL, Python, HTML & CSS

Data Analytics: Data Analysis, Data Visualization, Dashboard Development, Data Cleaning & Preprocessing, Data Interpretation

AI Technologies: AI, ML, DL, Prompt Engineering, AI-Assisted Software Development, Modern AI Development, Rapid Prototyping

Tools: Git, GitHub, VS Code, Google Workspace, Power BI, Tableau, Excel, MySQL, AI Coding Assistants, AI Productivity Tools

Core Competencies: Analytical Thinking, Problem Solving, Team Collaboration, Adaptability, Time Management, Decision Making, Leadership, Technical Communication, Continuous Learning, Customer-Centric Mindset, Attention to Detail

Achievements: Winner of Hackathons & Projects, Multiple Industry Internships, JEE Main Ranker, GATE 2026 Ranker, Participated in multiple hackathons, Built multiple real-world projects in Data Analytics, Artificial Intelligence.

PROJECTS

- **EcoTwin** – Smart City Digital Twin
- **Stock Market Analysis & Interactive Dashboard**
- **CivilAssist** – AI-Powered Civil Engineering Assistant
- **SQL Database Design & Analytics**
- **AI-Based Face Recognition Attendance System**
- **SmartAgri AI**
